Subject: **Request Approval of Recommendation of County Resident to the City of Santa Fe's Library Board**

Background and Summary:

On June 13, 1962, the City of Santa Fe (City) created the City of Santa Fe Library Board (Board). The Board consists of seven (7) members, five (5) of whom shall be residents of the city and two (2) who shall be residents of Santa Fe County outside the incorporated boundaries of the city.

County residents shall be appointed by the Mayor on the advice of the County Commission and with approval of a majority of the City Council.

The County Manager's Office has been in communication with City on a potential County recommendation since December 12, 2018. The City received a letter of interest of one individual for the Board, but after verification of address, the individual resides outside the incorporated boundaries of the City, therefore eligible for a County recommendation for appointment.

Recommendation:

Staff is recommending that Mr. Richard C. Ryan be recommended to the City for appointment to the Board.

Dear Ms. Finley,

I am writing this letter in response to the solicitation for a Santa Fe Public Library Board candidate. I am very interested in this opportunity. After my wife's long career as a lawyer and my career as a contractor and academic, we retired and moved to Santa Fe approximately two years ago. One of the first things we did was acquire library cards. I am a strong believer and advocate for what libraries offer people and communities. Not only do I strongly support libraries, but I think my background addresses the desired skill set described in the solicitation. Please see my included abbreviated resume.

To very briefly note, I chaired the initial Norman, OK citizens' committee charged with helping pass a bond issue for a new main public library in 2007-2008. That attempt was unsuccessful by only 300 or so votes, mainly because there was no designated building site. During the campaign, working closely with the architect shepherding the bond, I learned so much about what a strong library system can offer a community. Though it was frustrating not to be successful at that time, today I view it as a necessary step to the new \$39M library that is finally being constructed in Norman.

I think I can help take the Santa Fe library system forward. Please contact me (rryan@ou.edu; 405.206.3520) if you have any questions or require further information. Thank you for your consideration.

Sincerely,

Richard C. Ryan
